Independent Auditors' Report

To the Honorable Members of
the City Council of the
City of Galax, Virginia

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Galax, Virginia, as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the City of Galax, Virginia's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Counties, Cities, and Towns*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Galax, Virginia, as of June 30, 2014, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the budgetary comparison information and schedule of pension and OPEB funding progress on pages 58 and 59 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance. The budgetary comparison information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Management has omitted management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Galax, Virginia's basic financial statements. The introductory section, other supplementary information, supporting schedules, and statistical section, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is also not a required part of the basic financial statements.

Other Information (continued)

The other supplementary information and the schedule of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the other supplementary information and the schedule of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory section and statistical information have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 14, 2014, on our consideration of the City of Galax, Virginia's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City of Galax, Virginia's internal control over financial reporting and compliance.

City of Galax, Virginia
 Reconciliation of the Statement of Revenues,
 Expenditures, and Changes in Fund Balances of Governmental Funds
 to the Statement of Activities
 For the Year Ended June 30, 2014

Amounts reported for governmental activities in the statement of activities are different because:

Net change in fund balances - total governmental funds	\$	(65,898)
--	----	----------

Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded the depreciation in the current period.

Capital outlays	\$	858,951
Depreciation expense		<u>(803,606)</u>
		55,345

The net effect of various miscellaneous transactions involving capital assets (i.e., sales, trade-ins, and donations) is to increase net position.		(60,324)
--	--	----------

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.		70,462
--	--	--------

The issuance of long-term debt (e.g. bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.

Debt issued or incurred:		
(Increase) Decrease in accrued landfill closure/postclosure liability	\$	24,805
Principal repayments:		
Bonds, notes, loans and lease purchase agreements		<u>607,493</u>
		632,298

Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore are not reported as expenditures in governmental funds.

Decrease (increase) in compensated absences	\$	2,584
Decrease (increase) in accrued interest payable		10,262
(Increase) decrease in net OPEB obligation		<u>(23,910)</u>
		(11,064)

Change in net position of governmental activities	\$	<u><u>620,819</u></u>

CITY OF GALAX, VIRGINIA

NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2014

Note 1-Summary of Significant Accounting Policies:

The financial statements of the City of Galax, Virginia conform to generally accepted accounting principles (GAAP) applicable to governmental units promulgated by the Governmental Accounting Standards Board (GASB). The following is a summary of the more significant policies:

A. Financial Reporting Entity

The City of Galax, Virginia (government) is a political subdivision of the Commonwealth of Virginia governed by an elected seven-member City Council. The accompanying financial statements present the government and its component units, entities for which the government is considered to be financially accountable. Blended component units, although legally separate entities, are, in substance, part of the government's operations. Each discretely presented component unit is reported in a separate column in the government-wide financial statements (see note below for description) to emphasize that it is legally separate from the government.

Blended component units - None

Discretely Presented Component Units - The component unit columns in the financial statements include the financial data of the City's discretely presented component units.

The Galax City School Board operates the elementary and secondary public schools in the City. School Board members are appointed by City Council. The School Board is fiscally dependent upon the City because the City approves all debt issuances of the School Board and provides significant funding to operate the public schools since the School Board does not have separate taxing powers. The School Board is presented as a governmental fund type. The School Board does not issue separate financial statements.

The Galax City Industrial Development Authority (IDA) encourages and provides financing for industrial development in the City. The Industrial Development Authority directors are appointed by the City Council. The Industrial Development Authority is fiscally dependent upon the City because the City provides significant funding and approves all debt issuances. In addition, the IDA does not have separate taxing powers. The Industrial Development Authority is authorized to acquire, own, lease, and dispose of properties to the extent that such activities foster and stimulate industrial development. The Industrial Development Authority is presented as an enterprise fund type and does not issue separate financial statements.

Galax Futures Inc. is a non-profit corporation that was organized to take, hold and transfer title to real estate and other property, for purposes of industrial and economic development in the Galax Community. The Board of Galax Futures Inc. is self-perpetuating and is comprised of current City Council members and management of the City of Galax. Under GASB Statements 14 and 61, Galax Futures is considered a "controlled organization" and therefore is reported as a component unit of the City of Galax, Virginia. The financial statements of Galax Futures Inc. include subsidiaries owned (controlled) by Galax Futures Inc. Galax Futures Inc. is presented as an enterprise fund type and does not issue separate financial statements.

Note 1-Summary of Significant Accounting Policies: (Continued)

A. Financial Reporting Entity (Continued)

Jointly Governed Organizations - The following entities are excluded from the accompanying financial statements:

The Galax-Carroll Regional Library was created by the City and the County of Carroll. The governing body of this organization is appointed by the respective governing bodies of the participating jurisdictions. The City contributed \$226,716 to the Library for the current year. The City provides accounting services (payroll services) for this organization.

The City, in conjunction with the Counties of Carroll and Grayson, participates in supporting the Twin County E-911 Commission. The governing body of this organization is appointed by the respective governing bodies of the participating jurisdictions. The City contributed \$95,070 to the Commission for the current year. The City provides accounting services (payroll services) for this organization.

The City and the County of Grayson participate in supporting the Galax-Grayson Ambulance Service. The governing body of this organization is appointed by the respective governing bodies of the participating jurisdictions. The organization's activities are primarily supported by user charges; however the City provided a contribution of \$56,568 during the fiscal year. The City provides accounting services (payroll services) for this organization.

The City and the Counties of Carroll and Grayson participate in the Regional Solid Waste Authority. The governing body of this organization is appointed by the respective governing bodies of the participating jurisdictions. Each jurisdiction provides collection of solid waste and recyclables from within its jurisdiction and delivers the collected materials to the Waste Authority. Operations are financed by tipping fees and the individual jurisdictions are required to fund any annual deficit(s). The City paid \$100,547 in tipping fees during the current year.

The City and the Counties of Carroll and Grayson participate in The Wired Road Authority. The governing body of this organization is appointed by the respective governing bodies of the participating jurisdictions. The primary purpose of the Authority is to develop and construct broadband infrastructure in the participating localities and then lease that infrastructure to third parties. The organization's activities are to be primarily supported by lease revenue.

The City and Counties of Carroll and Grayson participate in The Twin County Airport Commission. The governing body of this organization is appointed by the respective governing bodies of the participating jurisdictions. The Commission is charged with operating the Twin County Regional Airport. During the current year the City contributed \$30,500 to the Commission. The City has also entered into an agreement with The Twin County Airport Commission to be responsible for a one-third share of their debt service for hangar construction. The commitment could be reduced based on potential revenue from hangar rentals.

Note 1-Summary of Significant Accounting Policies: (Continued)

A. Financial Reporting Entity (Continued)

Blue Ridge Crossroads Economic Development Authority (BRCEDA) is the regional industrial facilities authority that represents the Counties of Galax, Carroll, and Grayson. Each jurisdiction appoints two members and an alternate member. A moral obligation for debt service is currently in place for a regional project known as Wildwood. Contributions to BRCEDA during the current year were \$152,189. It is the hope of BRCEDA that this park project will be a catalyst for economic development in the region.

B. Government-wide and fund financial statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business type activities*, which rely to a significant extent on fees and charges for support. Likewise, the *primary government* is reported separately from certain legally separate *component units* for which the primary government is financially accountable.

The statement of net position is designed to display the financial position of the primary government (government and business-type activities) and its discretely presented component units. Governments will report all capital assets in the government-wide statement of net position and will report depreciation expense - the cost of "using up" capital assets - in the Statement of Activities. The net position of a government will be broken down into three categories - 1) net investment in capital assets; 2) restricted; and 3) unrestricted.

The government-wide statement of activities reports expenses and revenues in a format that focuses on the cost of each of the government's functions. The expense of individual functions is compared to the revenues generated directly by the function (for instance, through user charges or intergovernmental grants).

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds, if any, are reported as separate columns in the fund financial statements.

Note 1-Summary of Significant Accounting Policies: (Continued)

C. Measurement focus, basis of accounting, and financial statement presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund and fiduciary fund financial statements, with the exception of agency funds (discussed below). Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Agency funds use the accrual basis of accounting, but have no measurement focus as they do not report equity.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Accordingly, real and personal property taxes are recorded as revenues and receivables when billed, net of allowances for uncollectible amounts. Property taxes not collected within 60 days after year-end are reflected as unavailable revenues.

Sales and utility taxes, which are collected by the state or utilities and subsequently remitted to the City, are recognized as revenues and receivables upon collection by the state or utility, which is generally in the month preceding receipt by the City.

Licenses, permits, fines and rents are recorded as revenues when received. Intergovernmental revenues, consisting primarily of federal, state and other grants for the purpose of funding specific expenditures, are recognized when earned or at the time of the specific expenditure. Revenues from general-purpose grants are recognized in the period to which the grant applies. All other revenue items are considered to be measurable and available only when the government receives cash.

The government reports the following major governmental fund:

The *General Fund* is the government's primary operating fund. It is used to account for and report for all financial resources of the general government, except those required to be accounted for and reported in other funds.

Note 1-Summary of Significant Accounting Policies: (Continued)

C. Measurement focus, basis of accounting, and financial statement presentation (Continued)

The government reports the following major proprietary funds:

The *Water and Sewer* Fund accounts for the activities of the City's water and sewer system, which includes water distribution and sewage collections systems throughout the City.

Additionally, the government reports the following fund types:

Fiduciary funds account for and report assets held by the government in a trustee capacity or as agent or custodian for individuals, private organizations, other governmental units, or other funds. Agency funds include *Special Welfare*.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are other charges between the government's water and sewer function and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as *program revenues* include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the City's enterprise fund are charges to customers for sales and services. The City also recognizes as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the system. Operating expenses for enterprise funds include the cost of sales and services, administrative expense, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

D. Assets, liabilities, deferred outflows/inflows of resources and net position/fund balance

1. Cash and cash equivalents

The government's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

Note 1-Summary of Significant Accounting Policies: (Continued)

D. Assets, liabilities, deferred outflows/inflows of resources and net position/fund balance (Continued)

2. Prepaid items

Certain payments to vendors represent costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. The cost of prepaid items is recorded as expenditures/expenses when consumed rather than when purchased.

3. Receivables and payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either “due to/from other funds” (i.e., the current portion of interfund loans) or “advances to/from other funds” (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as “due to/from other funds.” Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as “internal balances.”

4. Capital assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000 (amount not rounded) and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend the asset’s life are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed. No interest was capitalized during the fiscal year.

Property, plant, equipment, and infrastructure of the primary government, as well as the component units, is depreciated using the straight line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Infrastructure	20-50
Buildings and improvements	20-40
Machinery and equipment	4-15

Note 1-Summary of Significant Accounting Policies: (Continued)

D. Assets, liabilities, deferred outflows/inflows of resources and net position/fund balance (Continued)

5. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The City only has one item that qualifies for reporting in this category. It is the deferred charge on refunding reported in the government-wide statement of net position.

A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The City has one type of item that qualifies for reporting in this category. Under a modified accrual basis of accounting, unavailable revenue representing property taxes receivable is reported in the governmental funds balance sheet. This amount is comprised of uncollected property taxes due prior to June 30 and prepaid taxes and is deferred and recognized as an inflow of resources in the period that the amount becomes available. Under the accrual basis, the City's deferred inflows of resources at June 30 consist of \$6,344 in prepaid taxes.

6. Property Taxes

Property is assessed at its value on January 1. Real estate taxes are payable on December 5th. Personal property taxes are due and collectible annually on December 5th. Liens may be placed on property taxes that are uncollected after the due date, December 5th. The City bills and collects its own property taxes.

7. Allowance for Uncollectible Accounts

The City calculates its allowance for uncollectible accounts using historical collection data and, in certain cases, specific account analysis. The allowance amounted to approximately \$663,363 at June 30, 2014. The allowance consists of delinquent taxes in the amount of \$482,636; delinquent meals tax of \$75,021; and delinquent water, sewer, and garbage bills of \$105,706.

8. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Note 1-Summary of Significant Accounting Policies: (Continued)

D. Assets, liabilities, deferred outflows/inflows of resources and net position/fund balance (Continued)

9. Compensated Absences

Vested or accumulated vacation leave that is expected to be liquidated with expendable available financial resources is reported as an expenditure and a fund liability of the governmental fund that will pay it. Amounts of vested or accumulated vacation leave that are not expected to be liquidated with expendable available financial resources are reported as an expense in the Statement of Activities and a long-term obligation in the Statement of Net Position. In accordance with the provisions of Governmental Accounting Standards No. 16, Accounting for Compensated Absences, no liability is recorded for nonvesting accumulating rights to receive sick pay benefits. However, a liability is recognized for that portion of accumulating sick leave benefits that it is estimated will be taken as "terminal leave" prior to retirement.

10. Long-term obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight line method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses.

11. Fund equity

The City reports funds in accordance with GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*. The following classifications describe the relative strength of the spending constraints placed on the purposes for which resources can be used:

Nonspendable fund balance - amounts that are not in spendable form (such as inventory and prepaids) or are required to be maintained intact (corpus of a permanent fund);

Restricted fund balance - amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation;

Note 1-Summary of Significant Accounting Policies: (Continued)

D. Assets, liabilities, deferred outflows/inflows of resources and net position/fund balance (Continued)

11. Fund equity (Continued)

Committed fund balance - amounts constrained to specific purposes by a government itself, using its highest level of decision-making authority; to be reported as committed, amounts cannot be used for any other purpose unless the government takes the same highest level action to remove or change the constraint;

Assigned fund balance - amounts a government intends to use for a specific purpose; intent can be expressed by the governing body or by an official or body to which the governing body delegates the authority;

Unassigned fund balance - amounts that are available for any purpose; positive amounts are only reported in the general fund.

When fund balance resources are available for a specific purpose in more than one classification, it is the City's policy to use the most restrictive funds first in the following order: restricted, committed, assigned, and unassigned as they are needed.

12. Net position flow assumption

Sometimes the City will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted - net position and unrestricted - net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the City's policy to consider restricted - net position to have been depleted before unrestricted - net position is applied.

13. Net Position

Net position is the difference between a) assets and deferred outflows of resources and (b) liabilities and deferred inflows of resources. Net investment in capital assets represents capital assets, less accumulated depreciation, less any outstanding debt related to the acquisition, construction or improvement of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction, or improvement of those assets or related debt are also included in this component of net position.

14. Restricted Assets

Restricted assets consist of cash and cash equivalents that are legally restricted for use by enabling state legislation.

15. Inventories

All inventories are valued at cost using the first in/first out (FIFO) method. Inventories of governmental funds are recorded as expenditures when purchased.

Note 2-Stewardship, Compliance, and Accountability:

A. Budgetary information

The following procedures are used by the City in establishing the budgetary data reflected in the financial statements:

1. Prior to March 30, the City Manager submits to the City Council a proposed operating and capital budget for the fiscal year commencing the following July 1. The operating and capital budget includes proposed expenditures and the means of financing them. The following funds have legally adopted budgets: General Fund, Enterprise Fund and the School Operating Fund
2. Public hearings are conducted to obtain citizen comments.
3. Prior to June 30, the budget is legally enacted through passage of an Appropriations Resolution.
4. The Appropriations Resolution places legal restrictions on expenditures at the fund level. Only the City Council can revise the appropriation for each fund. The City Manager is authorized to transfer budgeted amounts within general government functions; however, the School Board is authorized to transfer budgeted amounts within the school fund.
5. Formal budgetary integration is employed as a management control device during the year for the General Fund. The School Fund is integrated only at the level of legal adoption.
6. All budgets are adopted on a basis consistent with generally accepted accounting principles (GAAP).
7. Appropriations lapse on June 30 for all City units.
8. Encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditure of monies are recorded in order to commit that portion of the applicable appropriations, is not part of the City's accounting system.

B. Excess of expenditures over appropriations

Expenditures did not exceed appropriations in any funds.

C. Deficit fund equity

At June 30, 2014, there were no funds with negative equity.

Note 3-Deposits and Investments:

Deposits: Deposits with banks are covered by the Federal Deposit Insurance Corporation (FDIC) and collateralized in accordance with the Virginia Security for Public Deposits Act (the “Act”), Section 2.2-4400 et. Seq. of the Code of Virginia. Under the Act, banks and savings institutions holding public deposits in excess of the amount insured by the FDIC must pledge collateral to the Commonwealth of Virginia Treasury Board. Financial Institutions may choose between two collateralization methodologies and depending upon that choice, will pledge collateral that ranges in the amounts from 50% to 130% of excess deposits. Accordingly, all deposits are considered fully collateralized.

Investments: Statutes authorize local governments and other public bodies to invest in obligations of the United States or agencies thereof, obligations of the Commonwealth of Virginia or political subdivisions thereof, obligations of the International Bank for Reconstruction and Development (World Bank), the Asian Development Bank, the African Development Bank, “prime quality” commercial paper and certain corporate notes, banker’s acceptances, repurchase agreements, and the State Treasurer’s Local Government Investment Pool (LGIP).

Interest Rate Risk

At year end, the City did not hold any investments that were subject to interest rate risk.

Custodial Credit Risk

At year end, the City was not exposed to any custodial credit risk for deposits or investments. The City limits deposits to those banks fully collateralized under the Commonwealth’s Security for Public Deposits Act. The City policy in regards to investments requires that all investments be held in the City’s name.

Credit Risk of Debt Securities

The City’s rated debt investments as of June 30, 2014 were rated by Standard and Poor’s and/or an equivalent national rating organization and the ratings are presented below using the Standard and Poor’s rating scale.

City's Rated Debt Investments' Values	
Rated Debt Investments	Fair Quality Ratings
	AAAm
LGIP	\$ 1,276

External Investment Pools

The fair value of the positions in the external investment pool (Local Government Investment Pool (LGIP)) is the same as the value of the pool shares. As this pool is not SEC registered, regulatory oversight of the pools rests with the Virginia State Treasury. LGIP maintains a policy to operate in a manner consistent with SEC Rule 2a-7.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)
 JUNE 30, 2014

Note 4-Due from Other Governmental Units:

The following amounts represent amounts due from other governments at year-end:

	Primary Government	Component Unit- School Board
Due from other local government agencies	\$ 10,002	\$ 20,685
Commonwealth of Virginia:		
Local sales tax	366,804	-
Categorical aid-State sales tax	-	184,789
Categorical aid-Other	341,689	128,000
Non-categorical aid	58,905	-
Categorical aid-Virginia Public Assistance	24,873	-
Categorical aid-Comprehensive Services Act	18,553	-
Federal Government:		
Categorical aid-Virginia Public Assistance	39,254	-
Categorical aid-Other	122,950	251,204
Totals	<u>\$ 983,030</u>	<u>\$ 584,678</u>

Note 5-Interfund/Component-Unit Obligations:

Fund	Due to Primary Government/ Component Unit	Due from Primary Government/ Component Unit
Primary Government:		
General Fund	\$ 639,093	\$ -
Component Unit - School Board:		
School Fund	\$ -	\$ 639,093
Totals	<u>\$ -</u>	<u>\$ 639,093</u>

At year end, the City's general fund carries a liability to the Component-Unit School Board for funds due the School Board under the City's appropriation resolution(s).

Primary government contributions to component units for the year ended June 30, 2014, consisted of payments to School Board of \$3,609,319.

Transfers are used to (1) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them and (2) use unrestricted revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgeting authorization. During the fiscal year, the City (Governmental type activities) transferred an asset with a net book value of \$554 to the Water and Sewer Fund.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)
 JUNE 30, 2014

Note 6-Long-Term Obligations:Primary Government - Governmental Activities Obligations:

The following is a summary of long-term obligation transactions of the City for the year ended June 30, 2014.

	Balance July 1, 2013	Increases/ Issuances	Decreases/ Retirements	Balance June 30, 2014
General Obligation Bonds	\$ 2,136,000	\$ -	\$ (120,250)	\$ 2,015,750
Notes Payable	222,267	-	(83,682)	138,585
Literary Fund Loans	4,917,722	-	(381,101)	4,536,621
Capital lease	22,460	-	(22,460)	-
Landfill closure/postclosure liability	681,785	-	(24,805)	656,980
Compensated absences	385,627	286,636	(289,220)	383,043
Net OPEB obligation	122,132	29,943	(5,621)	146,454
	<u>\$ 8,487,993</u>	<u>\$ 316,579</u>	<u>\$ (927,139)</u>	<u>\$ 7,877,433</u>
Total	<u>\$ 8,487,993</u>	<u>\$ 316,579</u>	<u>\$ (927,139)</u>	<u>\$ 7,877,433</u>

For governmental activities, compensated absences and the landfill closure/postclosure liability are generally liquidated in the General Fund.

Annual requirements to amortize long-term debt and related interest are as follows:

Year Ending June 30,	General Obligation Bonds		Notes Payable		Literary Fund Loans

Note 8-Pension Plan:

A. Plan Description

Name of Plan: Virginia Retirement System (VRS)
Identification of Plan: Agent and Cost-Sharing Multiple-Employer Pension Plan
Administering Entity: Virginia Retirement System (System)

All full-time, salaried permanent (professional) employees of public school divisions and employees of participating employers are automatically covered by VRS upon employment. Members earn one month of service credit for each month they are employed and they and their employer are paying contributions to VRS. Members are eligible to purchase prior public service, active duty military service, certain periods of leave and previously refunded VRS service as service credit in their plan.

Within the VRS Plan, the System administers three different benefit plans for local government employees - Plan 1, Plan 2, and, Hybrid. Each plan has different eligibility and benefit structures as set out below:

VRS – PLAN 1

- 1. Plan Overview** - VRS Plan 1 is a defined benefit plan. The retirement benefit is based on a member's age, creditable service and average final compensation at retirement using a formula. Employees are eligible for VRS Plan 1 if their membership date is before July 1, 2010, and they were vested as of January 1, 2013.
- 2. Eligible Members** - Employees are in VRS Plan 1 if their membership date is before July 1, 2010, and they were vested as of January 1, 2013.
- 3. Hybrid Opt-In Election** - VRS non-hazardous duty covered Plan 1 members were allowed to make an irrevocable decision to opt into the Hybrid Retirement Plan during a special election window held January 1 through April 30, 2014.

The Hybrid Retirement Plan's effective date for eligible VRS Plan 1 members who opted in was July 1, 2014.

If eligible deferred members returned to work during the election window, they were also eligible to opt into the Hybrid Retirement Plan.

Members who were eligible for an optional retirement plan (ORP) and had prior service under VRS Plan 1 were not eligible to elect the Hybrid Retirement Plan and remain as VRS Plan 1 or ORP.

Note 8-Pension Plan: (Continued)

A. Plan Description (Continued)

VRS – PLAN 1 (Continued)

4. **Retirement Contributions** - Members contribute up to 5% of their compensation each month to their member contribution account through a pre-tax salary reduction. Some school divisions and political subdivisions elected to phase in the required 5% member contribution; all employees will be paying the full 5% by July 1, 2016. Member contributions are tax-deferred until they are withdrawn as part of a retirement benefit or as a refund. The employer makes a separate actuarially determined contribution to VRS for all covered employees. VRS invests both member and employer contributions to provide funding for the future benefit payment.
5. **Creditable Service** - Creditable service includes active service. Members earn creditable service for each month they are employed in a covered position. It also may include credit for prior service the member has purchased or additional creditable service the member was granted. A member's total creditable service is one of the factors used to determine their eligibility for retirement and to calculate their retirement benefit. It also may count toward eligibility for the health insurance credit in retirement, if the employer offers the health insurance credit.
6. **Vesting** - Vesting is the minimum length of service a member needs to qualify for a future retirement benefit. Members become vested when they have at least five years (60 months) of creditable service. Vesting means members are eligible to qualify for retirement if they meet the age and service requirements for their plan. Members also must be vested to receive a full refund of their member contribution account balance if they leave employment and request a refund.

Members are always 100% vested in the contributions that they make.

7. **Calculating the Benefit** - The Basic Benefit is calculated based on a formula using the member's average final compensation, a retirement multiplier and total service credit at retirement. It is one of the benefit payout options available to a member at retirement.

An early retirement reduction factor is applied to the Basic Benefit if the member retires with a reduced retirement benefit or selects a benefit payout option other than the Basic Benefit.

8. **Average Final Compensation** - A member's average final compensation is the average of the 36 consecutive months of highest compensation as a covered employee.
9. **Service Retirement Multiplier** - The retirement multiplier is a factor used in the formula to determine a final retirement benefit. The retirement multiplier for non-hazardous duty members is 1.7%. The retirement multiplier for sheriffs and regional jail superintendents is 1.85%. The retirement multiplier of eligible political subdivision hazardous duty employees other than sheriffs and regional jail superintendents is 1.7% or 1.85% as elected by the employer.
10. **Normal Retirement Age** - Age 65.

Note 8-Pension Plan: (Continued)

A. Plan Description (Continued)

VRS – PLAN 1 (Continued)

- 11. Earliest Unreduced Retirement Eligibility** - Members who are not in hazardous duty positions are eligible for an unreduced retirement benefit at age 65 with at least five years (60 months) of creditable service or at age 50 with at least 30 years of creditable service.

Hazardous duty members are eligible for an unreduced retirement benefit at age 60 with at least five years of creditable service or age 50 with at least 25 years of creditable service.

- 12. Earliest Reduced Retirement Eligibility** - Members may retire with a reduced benefit as early as age 55 with at least five years (60 months) of creditable service or age 50 with at least 10 years of creditable service.

- 13. Cost-of-Living Adjustment (COLA) in Retirement** - The Cost-of-Living Adjustment (COLA) matches the first 3% increase in the Consumer Price Index for all Urban Consumers (CPI-U) and half of any additional increase (up to 4%) up to a maximum COLA of 5%.

- 14. Eligibility** - For members who retire with an unreduced benefit or with a reduced benefit with at least 20 years of creditable service, the COLA will go into effect on July 1 after one full calendar year from the retirement date.

For members who retire with a reduced benefit and who have less than 20 years of creditable service, the COLA will go into effect on July 1 after one calendar year following the unreduced retirement eligibility date.

- 15. Exceptions to COLA Effective Dates** - The COLA is effective July 1 following one full calendar year (January 1 to December 31) under any of the following circumstances:

- The member is within five years of qualifying for an unreduced retirement benefit as of January 1, 2013.
- The member retires on disability.
- The member retires directly from short-term or long-term disability under the Virginia Sickness and Disability Program (VSDP).
- The member is involuntarily separated from employment for causes other than job performance or misconduct and is eligible to retire under the Workforce Transition Act or the Transitional Benefits Program.
- The member dies in service and the member's survivor or beneficiary is eligible for a monthly death-in-service benefit. The COLA will go into effect on July 1 following one full calendar year (January 1 to December 31) from the date the monthly benefit begins.

Note 8-Pension Plan: (Continued)

A. Plan Description (Continued)

VRS – PLAN 1 (Continued)

- 16. Disability Coverage** - Members who are eligible to be considered for disability retirement and retire on disability, the retirement multiplier is 1.7% on all service, regardless of when it was earned, purchased or granted.

Most state employees are covered under the Virginia Sickness and Disability Program (VSDP), and are not eligible for disability retirement.

VSDP members are subject to a one-year waiting period before becoming eligible for non-work related disability benefits.

- 17. Purchase of Prior Service** - Members may be eligible to purchase service from previous public employment, active duty military service, an eligible period of leave or VRS refunded service as creditable service in their plan. Prior creditable service counts toward vesting, eligibility for retirement and the health insurance credit. Only active members are eligible to purchase prior service. When buying service, members must purchase their most recent period of service first. Members also may be eligible to purchase periods of leave without pay.

VRS – PLAN 2

- 1. Plan Overview** - VRS Plan 2 is a defined benefit plan. The retirement benefit is based on a member's age, creditable service and average final compensation at retirement using a formula. Employees are eligible for VRS Plan 2 if their membership date is on or after July 1, 2010, or their membership date is before July 1, 2010, and they were not vested as of January 1, 2013.
- 2. Eligible Members** - Employees are in VRS Plan 2 if their membership date is on or after July 1, 2010, or their membership date is before July 1, 2010, and they were not vested as of January 1, 2013.
- 3. Hybrid Opt-In Election** - VRS Plan 2 members were allowed to make an irrevocable decision to opt into the Hybrid Retirement Plan during a special election window held January 1 through April 30, 2014.

The Hybrid Retirement Plan's effective date for eligible VRS Plan 2 members who opted in was July 1, 2014.

If eligible deferred members returned to work during the election window, they were also eligible to opt into the Hybrid Retirement Plan.

Members who were eligible for an optional retirement plan (ORP) and have prior service under VRS Plan 2 were not eligible to elect the Hybrid Retirement Plan and remain as VRS Plan 2 or ORP.

Note 8-Pension Plan: (Continued)

A. Plan Description (Continued)

VRS – PLAN 2 (Continued)

4. **Retirement Contributions** - Same as VRS Plan 1–Refer to Section 4.
5. **Creditable Service** - Same as VRS Plan 1– Refer to Section 5.
6. **Vesting** - Same as VRS Plan 1–Refer to Section 6.
7. **Calculating the Benefit** - Same as VRS Plan 1–Refer to Section 7.
8. **Average Final Compensation** - A member’s average final compensation is the average of their 60 consecutive months of highest compensation as a covered employee.
9. **Service Retirement Multiplier** - Same as Plan1 for service earned, purchased or granted prior to January 1, 2013. For non-hazardous duty members the retirement multiplier is 1.65% for creditable service earned, purchased or granted on or after January 1, 2013.
10. **Normal Retirement Age** - Normal Social Security retirement age.
11. **Earliest Unreduced Retirement Eligibility** - Members who are not in hazardous duty positions are eligible for an unreduced retirement benefit when they reach normal Social Security retirement age and have at least five years (60 months) of creditable service or when their age and service equal 90.

Hazardous duty members are eligible for an unreduced retirement benefit at age 60 with at least five years of creditable service or age 50 with at least 25 years of creditable service.
12. **Earliest Reduced Retirement Eligibility** - Members may retire with a reduced benefit as early as age 60 with at least five years (60 months) of creditable service.
13. **Cost-of-Living Adjustment (COLA) in Retirement** - The Cost-of-Living Adjustment (COLA) matches the first 2% increase in the CPI-U and half of any additional increase (up to 2%), for a maximum COLA of 3%.
14. **Eligibility** - Same as VRS Plan 1–Refer to Section 14.
15. **Exceptions to COLA Effective Dates** - Same as VRS Plan 1–Refer to Section 15.

Note 8-Pension Plan: (Continued)

A. Plan Description (Continued)

VRS – PLAN 2 (Continued)

16. Disability Coverage - Members who are eligible to be considered for disability retirement and retire on disability, the retirement multiplier is 1.65% on all service, regardless of when it was earned, purchased or granted.

Most state employees are covered under the Virginia Sickness and Disability Program (VSDP), and are not eligible for disability retirement.

VSDP members are subject to a one-year waiting period before becoming eligible for non-work related disability benefits.

17. Purchase of Prior Service - Same as VRS Plan 1—Refer to Section 17.

HYBRID RETIREMENT PLAN

1. Plan Overview - The Hybrid Retirement Plan combines the features of a defined benefit plan and a defined contribution plan. Most members hired on or after January 1, 2014 are in this plan, as well as VRS Plan 1 and VRS Plan 2 members who were eligible and opted into the plan during a special election window. (See “Eligible Members”)

- The defined benefit is based on a member’s age, creditable service and average final compensation at retirement using a formula.
- The benefit from the defined contribution component of the plan depends on the member and employer contributions made to the plan and the investment performance of those contributions.
- In addition to the monthly benefit payment payable from the defined benefit plan at retirement, a member may start receiving distributions from the balance in the defined contribution account, reflecting the contributions, investment gains or losses, and any required fees.

Note 8-Pension Plan: (Continued)

A. Plan Description (Continued)

HYBRID RETIREMENT PLAN (Continued)

2. **Eligible Members** - Employees are in the Hybrid Retirement Plan if their membership date is on or after January 1, 2014. This includes:
 - State employees*
 - School division employees
 - Political subdivision employees*
 - Judges appointed or elected to an original term on or after January 1, 2014
 - Members in VRS Plan 1 or VRS Plan 2 who elected to opt into the plan during the election window held January 1-April 30, 2014; the plan's effective date for opt-in members was July 1, 2014
3. ***Non-Eligible Members** - Some employees are not eligible to participate in the Hybrid Retirement Plan. They include:
 - Members of the State Police Officers' Retirement System (SPORS)
 - Members of the Virginia Law Officers' Retirement System (VaLORS)
 - Political subdivision employees who are covered by enhanced benefits for hazardous duty employees

Those employees eligible for an optional retirement plan (ORP) must elect the ORP plan or the Hybrid Retirement Plan. If these members have prior service under VRS Plan 1 or VRS Plan 2, they are not eligible to elect the Hybrid Retirement Plan and must select VRS Plan 1 or VRS Plan 2 (as applicable) or ORP.

4. **Retirement Contributions** - A member's retirement benefit is funded through mandatory and voluntary contributions made by the member and the employer to both the defined benefit and the defined contribution components of the plan. Mandatory contributions are based on a percentage of the employee's creditable compensation and are required from both the member and the employer. Additionally, members may choose to make voluntary contributions to the defined contribution component of the plan, and the employer is required to match those voluntary contributions according to specified percentages.

Note 8-Pension Plan: (Continued)

A. Plan Description (Continued)

HYBRID RETIREMENT PLAN (Continued)

5. Creditable Service

Defined Benefit Component - Under the defined benefit component of the plan, creditable service includes active service. Members earn creditable service for each month they are employed in a covered position. It also may include credit for prior service the member has purchased or additional creditable service the member was granted. A member's total creditable service is one of the factors used to determine their eligibility for retirement and to calculate their retirement benefit. It also may count toward eligibility for the health insurance credit in retirement, if the employer offers the health insurance credit.

Defined Contribution Component - Under the defined contribution component, creditable service is used to determine vesting for the employer contribution portion of the plan.

6. Vesting

Defined Benefit Component - Defined benefit vesting is the minimum length of service a member needs to qualify for a future retirement benefit. Members are vested under the defined benefit component of the Hybrid Retirement Plan when they reach five years (60 months) of creditable service. VRS Plan 1 or VRS Plan 2 members with at least five years (60 months) of creditable service who opted into the Hybrid Retirement Plan remain vested in the defined benefit component.

Defined Contribution Component - Defined contribution vesting refers to the minimum length of service a member needs to be eligible to withdraw the employer contributions from the defined contribution component of the plan.

Members are always 100% vested in the contributions that they make.

Upon retirement or leaving covered employment, a member is eligible to withdraw a percentage of employer contributions to the defined contribution component of the plan, based on service.

- After two years, a member is 50% vested and may withdraw 50% of employer contributions.
- After three years, a member is 75% vested and may withdraw 75% of employer contributions.
- After four or more years, a member is 100% vested and may withdraw 100% of employer contributions.

Distribution is not required by law until age 70½.

HYBRID RETIREMENT PLAN (Continued)

7. Calculating the Benefit

Defined Benefit Component - Same as VRS Plan 1-Refer to Section 7.

Defined Contribution Component - The benefit is based on contributions made by the member and any matching contributions made by the employer, plus net investment earnings on those contributions.

8. Average Final Compensation - Same as VRS Plan 2-Refer to Section 8. It is used in the retirement formula for the defined benefit component of the plan.

9. Service Retirement Multiplier - The retirement multiplier is 1.0%.

For members that opted into the Hybrid Retirement Plan from VRS Plan 1 or VRS Plan 2, the applicable multipliers for those plans will be used to calculate the retirement benefit for service credited in those plans.

10. Normal Retirement Age

Defined Benefit Component - Same as VRS Plan 2-Refer to Section 10.

Defined Contribution Component - Members are eligible to receive distributions upon leaving employment, subject to restrictions.

11. Earliest Unreduced Retirement Eligibility

Defined Benefit Component - Members are eligible for an unreduced retirement benefit when they reach normal Social Security retirement age and have at least five years (60 months) of creditable service or when their age and service equal 90.

Defined Contribution Component - Members are eligible to receive distributions upon leaving employment, subject to restrictions.

12. Earliest Reduced Retirement Eligibility

Defined Benefit Component - Members may retire with a reduced benefit as early as age 60 with at least five years (60 months) of creditable service.

Defined Contribution Component - Members are eligible to receive distributions upon leaving employment, subject to restrictions.

Note 8-Pension Plan: (Continued)

A. Plan Description (Continued)

HYBRID RETIREMENT PLAN (Continued)

13. Cost-of-Living Adjustment (COLA) in Retirement

Defined Benefit Component - Same as VRS Plan 2–Refer to Section 13.

Defined Contribution Component - Not Applicable.

14. Eligibility - Same as VRS Plan 1 and VRS Plan 2–Refer to Section 14.

15. Exceptions to COLA Effective Dates - Same as VRS Plan 1 and VRS Plan 2–Refer to Section 15.

16. Disability Coverage - Eligible political subdivision and school division members (including VRS Plan 1 and VRS Plan 2 opt-ins) participate in the Virginia Local Disability Program (VLDP) unless their local governing body provides an employer-paid comparable program for its members.

State employees (including VRS Plan 1 and VRS Plan 2 opt-ins) participating in the Hybrid Retirement Plan are covered under the Virginia Sickness and Disability Program (VSDP), and are not eligible for disability retirement.

Hybrid members (including VRS Plan 1 and VRS Plan 2 opt-ins) covered under VSDP or VLDP are subject to a one-year waiting period before becoming eligible for non-work related disability benefits.

17. Purchase of Prior Service

Defined Benefit Component - Same as VRS Plan 1 and VRS Plan 2–Refer to Section 17.

Defined Contribution Component - Not Applicable.

The System issues a publicly available comprehensive annual financial report that includes financial statements and required supplementary information for VRS. A copy of the most recent report may be obtained from the VRS website at <http://www.varetire.org/Pdf/Publications/2013-annual-report.pdf>, or by writing to the System’s Chief Financial Officer at P.O. Box 2500, Richmond, VA, 23218-2500.

Note 8-Pension Plan: (Continued)

B. Funding Policy

Plan members are required by Title 51.1 of the Code of Virginia (1950), as amended, to contribute 5.00% of their compensation toward their retirement. All or part of the 5.00% member contribution may be assumed by the employer. Beginning July 1, 2012 new employees were required to pay the 5% member contribution. In addition, for existing employees, employers were required to begin making the employee pay the 5% member contribution. This could be phased in over a period up to 5 years and the employer is required to provide a salary increase equal to the amount of the increase in the employee-paid member contribution. In addition, the City and School Board are required to contribute the remaining amounts necessary to fund its participation in the VRS using the actuarial basis specified by the Code of Virginia and approved by the VRS Board of Trustees. The City's and School Board's contribution rates for the fiscal year ended 2014 were 11.98% and 10.63% of annual covered payroll, respectively.

The School Board's contributions for professional employees were \$785,908, \$762,537 and \$703,226 to the teacher cost-sharing pool for the fiscal years ended June 30, 2014, 2013 and 2012, respectively and these contributions represented 11.66%, 11.66%, and 6.33% for 2014, 2013 and 2012, respectively, of current covered payroll.

C. Annual Pension Cost

For fiscal year 2014, the City's annual pension cost of \$699,177 and \$58,718 was equal to the City's and School Board's required and actual contributions for the City and the School Board Non-Professionals, respectively.

	Three-Year Trend Information			
	Fiscal Year	Annual Pension	Percentage of APC	Net Pension
	Ending	Cost (APC) ⁽¹⁾	Contributed	Obligation
Primary Government:

School Board Non-Professional	6/30/2014	\$ 58,718	100.00%	\$ -
	6/30/2013	59,223	100.00%	-
	6/30/2012	71,998	100.00%	-

⁽¹⁾ Employer portion only

Note 8-Pension Plan: (Continued)

C. Annual Pension Cost (Continued)

The FY 2014 required contribution was determined as part of the June 30, 2011 actuarial valuation using the entry age actuarial cost method. The actuarial assumptions at June 30, 2011 included (a) an investment rate of return (net of administrative expenses) of 7.00%, (b) projected salary increases ranging from 3.75% to 5.60% per year for general government employees, 3.75% to 6.20% per year for teachers, and 3.50% to 4.75% for employees eligible for enhanced benefits available to law enforcement officers, firefighters, and sheriffs, and (c) a cost-of-living adjustment of 2.50% per year for Plan 1 employees and 2.25% for Plan 2 employees. Both the investment rate of return and the projected salary increases include an inflation component of 2.50%. The actuarial value of the City's and School Board's assets is equal to the modified market value of assets. This method uses techniques that smooth the effects of short-term volatility in the market value of assets over a five-year period. The City's and School Board's unfunded actuarial accrued liability is being amortized as a level percentage of projected payrolls on an open basis. The remaining amortization period at June 30, 2011 for the Unfunded Actuarial Accrued Liability (UAAL) was 30 years.

D. Funded Status and Funding Progress

As of June 30, 2013, the most recent actuarial valuation date, the City's plan was 76.56% funded. The actuarial accrued liability for benefits was \$24,158,934, and the actuarial value of assets was \$18,495,788, resulting in an unfunded actuarial accrued liability (UAAL) of \$5,663,146. The covered payroll (annual payroll of active employees covered by the plan) was \$5,493,673 and ratio of the UAAL to the covered payroll was 103.08%.

As of June 30, 2013, the most recent actuarial valuation date, the School Board's plan was 72.09% funded. The actuarial accrued liability for benefits was \$2,012,383, and the actuarial value of assets was \$1,450,782, resulting in an unfunded actuarial accrued liability (UAAL) of \$561,601. The covered payroll (annual payroll of active employees covered by the plan) was \$562,103 and ratio of the UAAL to the covered payroll was 99.91%.

The schedule of funding progress, presented as Required Supplementary Information (RSI) following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability (AAL) for benefits.

Note 9-Other Postemployment Benefits - City Health Insurance:

A. Plan Description

The City of Galax provides health care benefits for retired employees and their beneficiaries through a single-employer healthcare plan ("the Plan"). The Plan provides for participation by eligible retirees of the City in the health insurance programs available to City employees. The Plan will provide retiring employees the option to continue health insurance offered by the City. An eligible City retiree may receive this benefit until the retiree is eligible to receive Medicare. To be eligible for this benefit a retiree must have 15 years of service with the City. The benefits, employee contributions and the employer contributions are governed by the City and can be amended through City Council action. The Plan does not issue a publicly available financial report.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)
 JUNE 30, 2014

Note 9-Other Postemployment Benefits - City Health Insurance: (Continued)

B. Funding Policy

The City currently pays for post-retirement health care benefits on a pay-as-you-go basis. The City currently has 136 employees that are eligible for the program. In addition, for retirees of the City, 100 percent of premiums are the responsibility of the retiree. The rates (monthly premiums) were as follows at June 30, 2014:

Participants	Single	Employee/Spouse
Employee	\$ 585	\$ 1,187

C. Annual OPEB Cost and Net OPEB Obligation

The City is required to contribute the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal costs each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years.

For 2014, the City's annual OPEB cost (expense) was \$34,831 and the ARC was \$37,826. The obligation calculation is as follows:

Annual required contribution	\$ 37,826
Interest on net OPEB obligation	5,587
Adjustment to annual required contribution	(8,582)
Annual OPEB cost (expense)	\$ 34,831
Contributions made	6,561
Increase in net OPEB obligation	\$ 28,270
Net OPEB obligation - beginning of year	142,547
Net OPEB obligation - ending of year	\$ 170,817

The City's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for 2014 and the two preceding years were as follows:

Fiscal Year Ended	Annual OPEB Cost	Annual OPEB Cost Contributed	Net OPEB Obligation
6/30/2014	\$ 34,831	19%	\$ 170,817
6/30/2013	37,734	17%	142,547
6/30/2012	36,343	18%	111,375

Note 9-Other Postemployment Benefits - City Health Insurance: (Continued)

D. Funded Status and Funding Progress

The funded status of the Plan as of June 30, 2012 (the most recent valuation date), was as follows:

Actuarial accrued liability (AAL)	\$	336,490
Actuarial value of plan assets	\$	-
Unfunded actuarial accrued liability (UAAL)	\$	336,490
Funded ratio (actuarial value of plan assets/AAL)		0.00%
Covered payroll (active plan members)	\$	4,549,428
UAAL as a percentage of covered payroll		7.40%

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far in the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, will present multiyear trend information, as it becomes available, about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

E. Actuarial methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the June 30, 2012, most recent actuarial valuation, the unit credit cost method was used. Under this method, stable employer contributions are produced in amounts that increase at the same rate as the employer's payroll. The actuarial assumptions included: discount rate at 4%, salary increases (inflation) of 2.5%/year and medical trend rate at 6.5%/year. The UAAL is being amortized as a level percentage over the remaining amortization period, which at June 30, 2012, was 30 years.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)
 JUNE 30, 2014

Note 10-Other Postemployment Benefits - School Board Health Insurance:

A. Plan Description

The Galax City School Board provides health care benefits for retired employees and their beneficiaries through a single-employer healthcare plan (“the Plan”). The Plan provides for participation by eligible retirees of the School Board in the health insurance programs available to School Board employees. The Plan will provide retiring employees the option to continue health insurance offered by the School Board. An eligible School Board retiree may receive this benefit until the retiree is eligible to receive Medicare. To be eligible for this benefit a retiree must have 10 years of service with the School Board. The benefits, employee contributions and the employer contributions are governed by the School Board and can be amended through School Board action. The Plan does not issue a publicly available financial report.

B. Funding Policy

The School Board currently pays for post-retirement health care benefits on a pay-as-you-go basis. The School Board currently has 191 employees that are eligible for the program. In addition, for retirees of the School Board, 100 percent of premiums are the responsibility of the retiree. The rates (monthly premiums) were as follows at June 30, 2014:

Participants	Single	Employee/Spouse
Employee	\$ 611	\$ 1,128

C. Annual OPEB Cost and Net OPEB Obligation

The School Board is required to contribute the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal costs each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years.

For 2014, the School Board’s annual OPEB cost (expense) was \$47,920 and the ARC was \$46,946. The obligation calculation is as follows:

Annual required contribution	\$ 46,946
Interest on net OPEB obligation	5,847
Adjustment to annual required contribution	(4,873)
Annual OPEB cost (expense)	<u>\$ 47,920</u>
Contributions made	21,046
Increase in net OPEB obligation	<u>\$ 26,874</u>
Net OPEB obligation - beginning of year	146,192
Net OPEB obligation - ending of year	<u>\$ 173,066</u>

Note 10-Other Postemployment Benefits - School Board Health Insurance: (Continued)

C. Annual OPEB Cost and Net OPEB Obligation (Continued)

The School Board’s annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for 2014 and the two preceding years were as follows:

Fiscal Year Ended	Annual OPEB Cost	Percentage of Annual OPEB Cost Contributed	Net OPEB Obligation
6/30/2014	\$ 47,920	44%	\$ 173,066
6/30/2013	46,847	45%	146,192
6/30/2012	56,210	61%	120,391

D. Funded Status and Funding Progress

The funded status of the Plan as of June 30, 2012 (the most recent valuation date), was as follows:

Actuarial accrued liability (AAL)	\$ 435,711
Actuarial value of plan assets	\$ -
Unfunded actuarial accrued liability (UAAL)	\$ 435,711
Funded ratio (actuarial value of plan assets/AAL)	0.00%
Covered payroll (active plan members)	\$ 5,800,144
UAAL as a percentage of covered payroll	7.51%

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far in the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, will present multiyear trend information, as it becomes available, about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

The actuarial assumptions included: discount rate at 4%, salary increases (inflation) of 2.5%/year and medical trend rate at 6.5%/year. The UAAL is being amortized as a level percentage over the remaining amortization period, which at June 30, 2012, was 30 years.

Note 11-Deferred Inflows of Resources:

Deferred inflows of resources represent amounts for which asset recognition criteria have been met, but for which revenue recognition criteria have not been met. Under the modified accrual basis of accounting, such amounts are measurable, but not available. Deferred inflows are as follow:

	Balance Sheet
	Governmental Funds
Primary Government:	
Unavailable property tax revenue representing uncollected property tax billings that are not available for the funding of current expenditures.	\$ 318,494
Property taxes received in advance of billings ¹	6,344
Deferred meals taxes representing uncollected meals tax	42,877
Total deferred (unearned) revenue	\$ 367,715

¹Property taxes paid on advance of an enforceable legal claim by the City are considered deferred inflows under the full and modified accrual basis of accounting and are treated accordingly in the statement of net position and balance sheet.

Note 13-Risk Management:

The City and its component unit - School Board are exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; and natural disasters.

The City participates with other localities in a public entity risk pool for its coverage of workers compensation, crime coverage, boiler and machinery, property insurance, automobile coverage, general liability, and public official's liability insurance with the Virginia Municipal Group. Each member of this risk pool jointly and severally agrees to assume, pay and discharge any liability. The City pays the Virginia Municipal Group contributions and assessments based upon classifications and rates into a designated cash reserve fund out of which expenses of the pool, claims and awards are to be paid. In the event of a loss deficit or depletion of all available excess insurance, the pool may assess all members in the year in which such deficit occurs.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)
JUNE 30, 2014

Note 13-Risk Management: (Continued)

The Component-unit School Board participates with other divisions in a public entity risk pool for its coverage of workers compensation, crime coverage, boiler and machinery, property insurance, automobile coverage, general liability, and public official's liability insurance with the Virginia School Board Association Property and Casualty Pool. Each member of this risk pool jointly and severally agrees to assume, pay and discharge any liability. The School Board pays the Pool contributions and assessments based upon classifications and rates into a designated cash reserve fund out of which expenses of the pool, claims and awards are to be paid. In the event of a loss deficit or depletion of all available excess insurance, the pool may assess all members in the year in which such deficit occurs.

The City and its component unit - School Board continue to carry commercial insurance for all other risk of loss. Settle claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

Note 14-Contingent Liabilities:

Federal programs in which the City and its component units participate were audited in accordance with the provisions of U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. Pursuant to the provisions of this circular all major programs and certain other programs were tested for compliance with applicable grant requirements. While no matters of noncompliance were disclosed by audit, the Federal Government may subject grant programs to additional compliance tests, which may result in disallowed expenditures. In the opinion of management, any future disallowances of current grant program expenditures, if any, would be immaterial.

Note 15-Landfill Closure and Post-closure Care Cost:

The City closed its former landfill site in 1994. In accordance with federal and state laws, the City placed a final cover on this site and was required to perform certain maintenance and monitoring functions for a minimum of ten years after closure.

The presence of certain contaminants has been detected in the groundwater, which thereby extends the monitoring period in excess of the initial requirement. The estimated liability is based on the Virginia Department of Environmental Quality (DEQ) accepting the active remedy proposed by the City as discussed below. If the DEQ does not accept the active remedy, the actual costs may increase. Also, actual costs may be higher due to inflation, changes in technology, changes in regulations, or other unforeseen circumstances. The cumulative amount of estimated postclosure care and corrective costs to date for this site, less cash paid for such costs to date, totals \$656,980. This amount is included in the long-term liabilities in the primary government.

The City's current plan of remediation is monitored natural attenuation. This remedy consists of monitoring wells on the site for what is expected to be approximately thirty years beginning in the year 2010. It is the City and its external engineer's belief that during thirty years, the groundwater contaminants will decrease to an acceptable level and the City will be released by the DEQ from all other monitoring requirements.

The City uses the financial test method of demonstrating assurance for postclosure care and corrective action costs.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)
 JUNE 30, 2014

Note 15-Landfill Closure and Post-closure Care Cost: (Continued)

The City demonstrated financial assurance requirements for closure, post-closure care, and corrective action costs through the submission of a Local Government Financial Test to the Virginia Department of Environmental Quality in accordance with Section 9VA C20-70 of the Virginia Administrative Code.

Note 16-Commitments and Contingencies:

Construction Commitments

The City was involved in several construction projects during the fiscal year, as presented below:

Project	Contract Amount	Contract Amount Outstanding at June 30, 2014
Shaw Street Storm Drainage Improvements Project	\$ 1,572,063	\$ 1,572,063
Bottom Area Project	56,400	9,015
Shaw Street Storm Drainage Improvements Project	147,500	87,930
Bottom Area Housing Rehab -James Unit A	25,000	12,500
Bottom Area Housing Rehab -James Unit B	29,500	14,750
Bottom Area Housing Rehab - Sanchez	53,000	53,000
Safe Routes to School-Final Design Phase	32,000	12,800
Safe Routes to School-Phase 2	3,200	1,600
Chestnut Creek Woodworking Studio	44,790	18,440

Wired Road Authority

During 2009, the Wired Road Authority entered a lease agreement and received a loan in the amount of \$260,000 to complete a broadband infrastructure project. The Authority is responsible for the debt service on the lease. The City has a non-binding commitment to make the debt service payments for the Authority. The balance remaining on the lease at the end of the year is \$141,931.

Shared Service Fees

The City shares services with Carroll County and Grayson County for costs incurred for the localities courts and sheriff offices. Due to the nature of these services the final amount due to each County is not known until after the financial statement audit has been completed. It is management’s policy to record a liability and expenditure during the current period that is equal to the amount paid during the prior year to account for unbilled shared service fees. Any difference caused during the true-up after year end is recorded in the year the bill is paid. During the current year, the shared service liability due to Carroll County and Grayson County is estimated at \$533,849. The true-up amount recorded during the current year for 2014 actual cost was \$27,399.

Note 17-Subsequent Events:

Subsequent to year end, the City issued \$1,414,000 in general obligation bonds for the construction of an addition to the City’s Police Department.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)
 JUNE 30, 2014

Note 18-New Accounting Standards:

The Governmental Accounting Standards Board (GASB) has issued Statement No. 67, *Financial Reporting for Pension Plans*, and Statement No. 68, *Accounting and Financial Reporting for Pensions*. Statement No. 68 will require governments with defined benefit pension plans to disclose a “net pension liability” on their balance sheets. That liability equals the difference between the total pension liability and the value of assets set aside in a pension plan to pay benefits. The statement calls for immediate recognition of more pension expense than is currently required. This includes immediate recognition of annual service cost and interest on the pension liability, plus the effect of changes in benefit terms on the net pension liability. These standards will be effective for fiscal years ending June 30, 2014 (67) and June 30, 2015 (68). The City believes the implementation of Statement No. 68 will significantly impact the City and Component Unit School Board’s net position; however no formal study or estimate of the impact of this standard has been performed.

Note 19-Restatement of Beginning Net Position:

Beginning net position/ has been restated for the current fiscal year as detailed below:

	Governmental Activities	Business-type Activities <u>Water/Sewer Fund</u>	Component-unit School Board
Ending net position, as previously reported	\$ 12,556,798	\$ 3,687,640	\$ 4,222,431
Asset transferred from City to the School Board	(3,243,496)	-	3,243,496
Additional capital assets	24,930	123,321	-
Ending net position, as restated	<u>\$ 9,338,232</u>	<u>\$ 3,810,961</u>	<u>\$ 7,465,927</u>

The City reports debt-financed assets used by the School Board as City assets until the associated debt is retired by the City. In 2009, the School Board used debt proceeds from the City together with existing resources for school renovations. The first adjustment above is necessary to transfer the non-debt financed portion of the project(s) to the School Board. The City performed a detailed review and real estate holdings and identified certain unrecorded parcels in 2014. The second adjustment above is to record previously unrecorded real estate assets of the City.

Note 19-Restricted and Committed Funds and Restricted Net Position:

	General Fund	Component Unit School Fund

Independent Auditors' Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

To the Honorable Members of
the City Council of the
City of Galax, Virginia

We have audited, in accordance with the auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Counties, Cities, and Towns*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia, the financial statements of the governmental activities, the business-type activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Galax, Virginia, as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the City of Galax, Virginia's basic financial statements, and have issued our report thereon dated October 14, 2014.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City of Galax, Virginia's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City of Galax, Virginia's internal control. Accordingly, we do not express an opinion on the effectiveness of the City of Galax, Virginia's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City of Galax, Virginia's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Independent Auditors' Report on Compliance For Each Major Program and on Internal Control over Compliance Required by OMB Circular A-133

To the Honorable Members of
the City Council of the
City of Galax, Virginia

Report on Compliance for Each Major Federal Program

We have audited the City of Galax, Virginia's compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of City of Galax, Virginia's major federal programs for the year ended June 30, 2014. The City of Galax, Virginia's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of the City of Galax, Virginia's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the City of Galax, Virginia's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the City of Galax, Virginia's compliance.

Opinion on Each Major Federal Program

In our opinion, the City of Galax, Virginia complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2014.

Report on Internal Control over Compliance

Management of the City of Galax, Virginia is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the City of Galax, Virginia's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the City of Galax, Virginia's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

Note to Schedule of Expenditures of Federal Awards

Note A--Basis of Presentation:

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal grant activity of the City of Galax, Virginia under programs of the federal government for the year ended June 30, 2014. The information in the Schedule is presented in accordance with the requirements of OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Because the Schedule presents only a selected portion of the operations of the City of Galax, Virginia, it is not intended to and does not present the financial position, changes in net position, or cash flows of the City of Galax, Virginia.

Note B--Summary of Significant Accounting Policies

(1) Expenditures reported on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in OMB Circular A-87, *Cost Principles for State, Local, and Indian Tribal Governments*, wherein certain types of expenditures are not allowed or are limited as to reimbursement.

(2) Pass-through entity indentifying number are presented where available.

Note C--Food Distribution

Nonmonetary assistance is reported in the schedule at the fair market value of the commodities received and disbursed.

CITY OF GALAX, VIRGINIA

Schedule of Expenditures of Federal Awards
Year Ended June 30, 2014

Note D--Relationship to the Financial Statements:

Federal expenditures, revenues and capital contributions are reported in the City's basic financial statements as follows:

Primary government:	
General Fund	\$ 1,321,959
Component Unit School Board:	
School Operating Fund	<u>1,418,439</u>
Total federal expenditures per the Schedule of Expenditures of Federal Awards	<u><u>\$ 2,740,398</u></u>
